

Arietta®

Herbicide

Arietta® Q&A

For the control of broadleaf & grass weeds

	Why use Arietta®?	- Flexibility in application timing - Weed spectrum - Reliability	- Broadleaf weeds (up to 8 leaves) - Grass weeds (up to 3 tillers)
	Which oil/adjuvant?	MUST use Hasten™ oil (esterified canola oil) Hasten™ provides Arietta® with the most effective penetrant system	
	Application rates	Arietta® 200 mL/ha + atrazine 1L/ha + Hasten™ 500 mL/100 L of water	
	Tank mixing options for Maize to extend weed spectrum	Atrazine - Enhances Arietta® performance on labelled weeds Nicosulfuron (WG formulations only) - Ryegrass and couch (twitch) Clopyralid - Californian thistle, yarrow and volunteer potatoes Dicamba - Californian thistle, field bindweed (Convolvulus arvensis) and cornbind (Polygonum convolvulus) NOTE: Do not use dicamba, clopyralid or nicosulfuron mixtures on sweetcorn	
	Water rate	Minimum of 200 L/ha "Coverage is Key" – for the best results use 300-400 L/ha	
	Rainfastness	Do not apply if rain is expected within 2 hours of application	

Post-emerge broadleaf and grass weed control in maize and sweetcorn

Broadleaf weeds (up to 8 leaves)		Grass weeds (up to 3 tillers)	
Apple of Peru	Fathen	Velvetleaf (before it lignifies)	Barnyard grass
Black nightshade	Fleabane	White clover	Smooth witchgrass
Broad-leaved dock (seedling)	Groundsel	Willow weed	Summer grass
Chamomile	Large flowered mallow		Yellow bristle grass
Chickweed	Scrambling speedwell		
Dandelion	Twin cress		

Arietta® Q&A

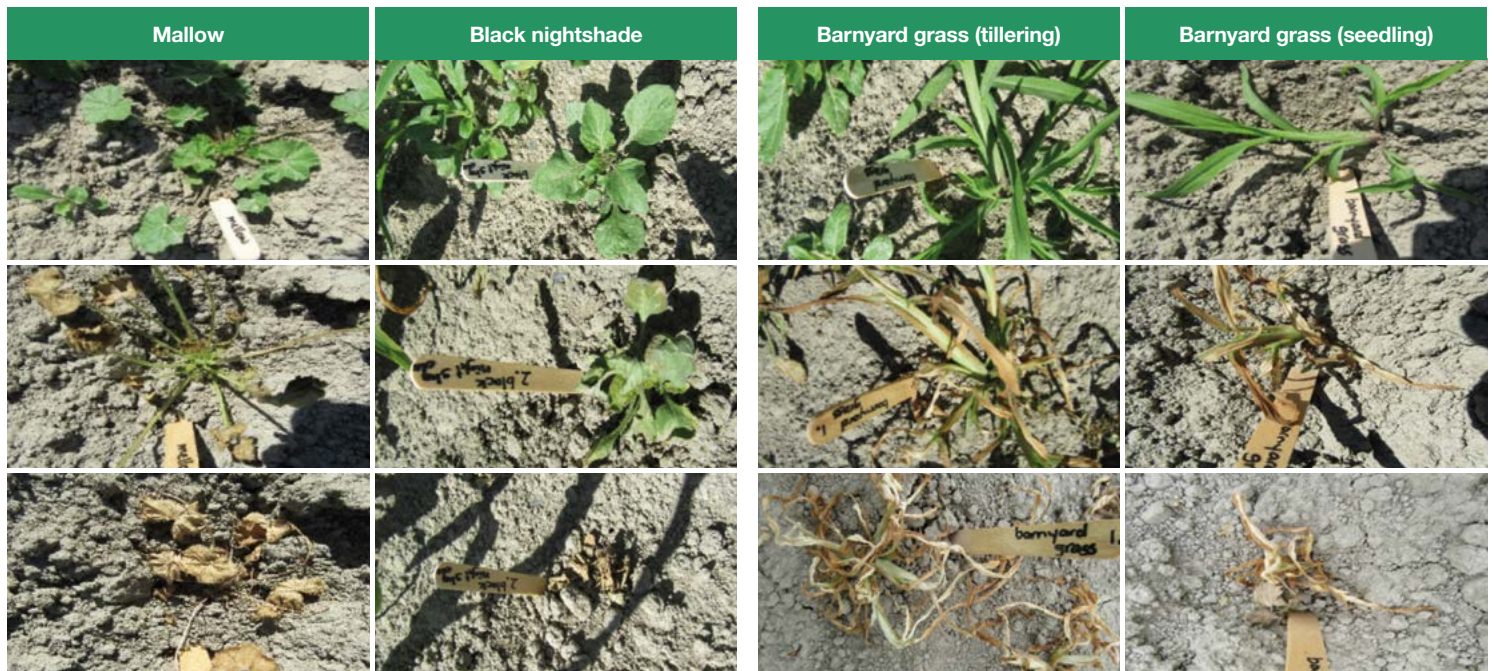

For the control of broadleaf & grass weeds

The BASF portfolio fit in the maize and sweetcorn programme

Soil & Planting preparation	Crop Establishment (Pre - emergence)	Vegetative	Reproductive	Harvest & Post harvest
Sharpen® 25 g/ha Herbicide	Sharpen® 150 g/ha Herbicide	Arietta® 200 mL/ha Herbicide	Opus® 600 mL/ha Fungicide	
+ glyphosate Herbicide	+ acetochlor Herbicide	+ atrazine 1 L Herbicide	+ Comet® 800 mL/ha Fungicide	
+ Hasten™ 500 mL/100 L water Adjuvant		+ Hasten™ 500 mL/100 L water Adjuvant	Timing V15-VT Control of Rust	

Broadleaf control
Arietta® + atrazine + Hasten™

Grass weed control
Arietta® + atrazine + Hasten™

Top row = at application
Middle row = 4 days after treatment
Bottom row = 9 days after treatment
